piani HPL Ø1800 mm disponibili solo in spessore 12mm.

Table base available in kit to be assembled
base tavolo disponibile in kit da assemblare

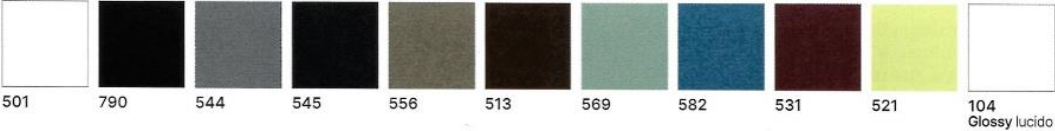

The sustainability of the products is our priority; indeed, the possibility to disassemble the Cross base reduces its volume and minimizes the space occupied by the structural crosspieces that compose it. The lesser volume will result in less CO2 produced in the phases that follow the product up to the end user; in case of damage to one or more elements of the base, the replacement of one single element is possible. This is a repairable product, that breaks down the concept of disposability.

La sostenibilità dei prodotti è una nostra priorità, la smontabilità della base Cross riduce i volumi e minimizza lo spazio occupato dai traversi strutturali che la compongono, meno volume meno CO2 prodotta nelle fasi che accompagnano il prodotto fino dall'utilizzatore finale, eventuali danneggiamenti di uno o più elementi della base permettono la sostituzione di un singolo elemento, un prodotto riparabile che abbatte il concetto di usa e getta.
